DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,9,10,11,14,16,17,18 are rejected under 35 U.S.C. 102(b) as being anticipated by Delaurier (6,164,386).

Delaurier discloses an apparatus including a frame bracket, a pair of laterally spaced parallel cylinder bores and cylindrical shafts 62 with a stop 68. Concerning claim 14, members 78 are considered hoe openers since they inherently form a small furrow in the ground.

Allowable Subject Matter

Claims 3-8,12,13,15,19-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 12/20/04 have been fully considered but they are not persuasive. Applicant argues that the nut 68 of Delaurier does not meet the limitation of the stop since the nut is disclosed as restricting the second end of the rod from sliding inwardly past the spring. The examiner agrees with applicant's interpretation of nut 68 during operation of the implement. However, it is the examiner's position that when the

implement is not being used, the position of the nut 68 on rod 62 determines the position of the implement relative to the frame bracket. For example, as nut 68 is threaded onto rod 62, the effective length of the rod is decreased and the implement is pivoted upward relative to frame 46. Therefore, the position of the shafts 62 can be selectively fixed in an inoperative position by the position of stop 68, which would read on applicant's claimed limitation.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
